1.1 Company Profile

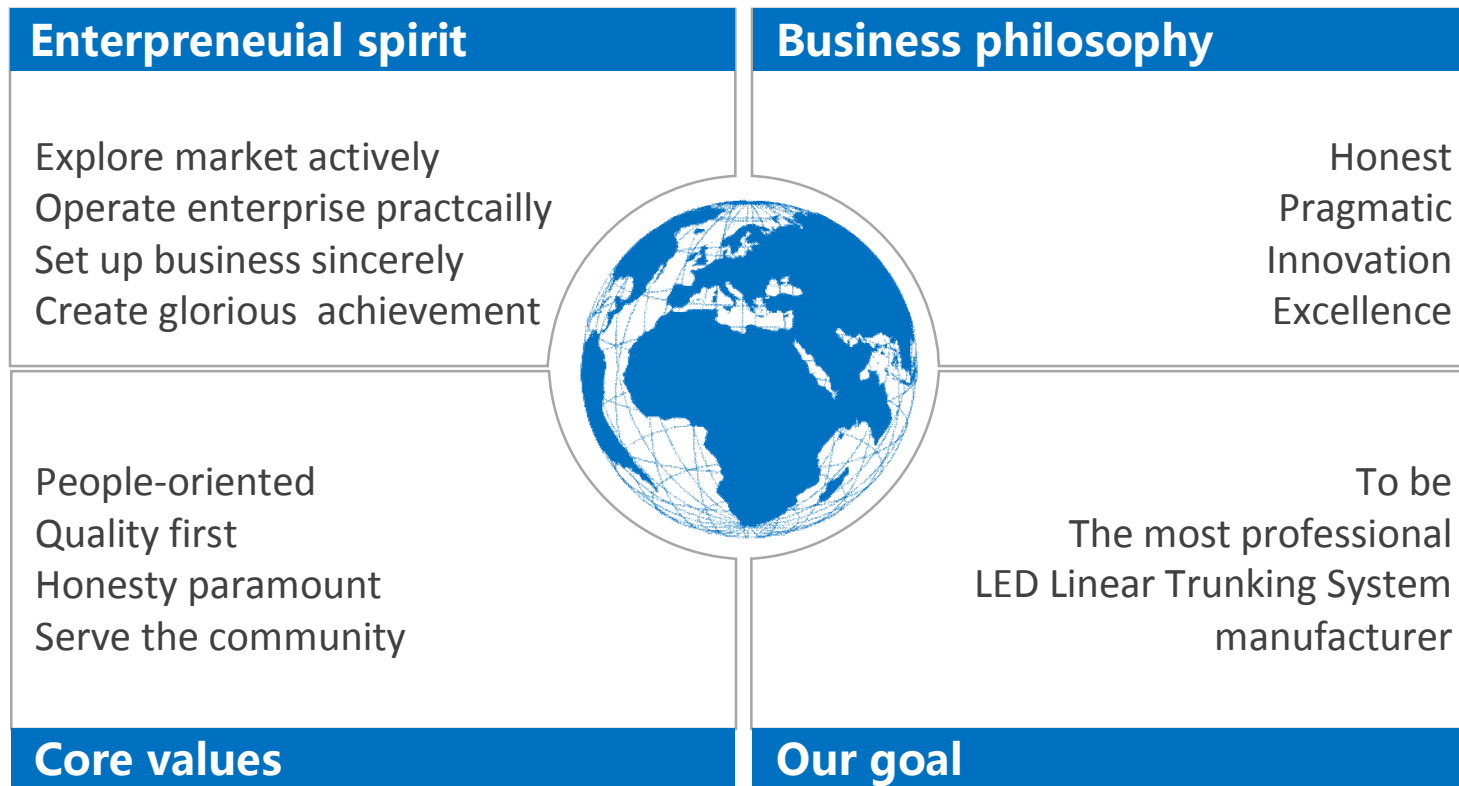

Providing Efficient Lighting Devices

Since 2008, Cillux has been a leading LED technology manufacturer of quality and sustainable product, with 120 staffs, it operates a 7,600 square foot manufacturing facility at its corporate headquarters in China.

With the agents throughout the Europe – German, UK, Netherland- and North American, Cillux gained a solid reputation in architectural, commercial, industrial applications. It delivers a comprehensive range of innovative light solutions to maximize performance, energy efficiency and cost savings.

— 2.1 General Introduction

O-LINE

Cillux LED Linear Trunking System is an energy-efficient, low maintenance alternative to traditional linear fluorescent in a variety of industrial, commercial and light assembly applications. It is the optimal solution for conventional lighting systems and also excellent for new installations due to its low installation cost - everything in one box and installation is tool-less

2.2 Advantages

High lumen output: 150lm/W to meet different requirements

Flexible Beam angle:
25, 60, 90, 120 degrees,
asymmetric, double-asymmetric

Tool free installation:
Pre-wired with connectors, plug-play, save 70% time and labor cost

Modular system:
Continuous row system, seamless
connection, max 3500W /row

Smart Light:
DIM (DALI, 1-10V, SwitchDim),
Emergency, Sensor
and Tracklight

7 years warranty
Ample heat sink area up to
106cm²/w

Double Asymmetric

— 2.4 Dimming Module

DALI

1-10V

- Digital Addressable
- Smart (Group/Scene Setting)
- Compatible with Sensor Module

- Convenient
 - Cost Saving
 - Compatible with Sensor Module
-

— 2.4 Sensor Module

- Internal or External Module design
- Two sensor combined in one module
- Compatible with DALI or 1-10V dimming module
- Strong anti-interference performance
- Far distance detecting - 6m, 12m and 20m

2.4 Tracklight Module

L1: Phase 1

L2: Phase 2

L3: Phase 3

Neutral Conductor

2.4 Emergency Module

- External emergency supply only(EL1/EL2)
- Built-in battery supply only
- Both external emergency supply and built-in battery supply

Provides power to the luminaire directly.

LED Lamp Driver

Emergency Driver

Switching from mains to emergency operation. 6W/12W

(NiMH) Battery

The battery in the lamp is rechargeable and it is maintenance-free.
